

Covid-19 & Juvenile Crime

Routine Activities Theory

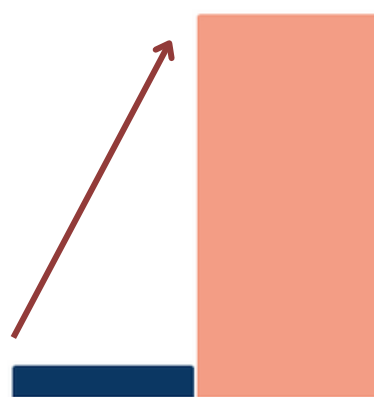

When the three factors below converge, crime is most likely to occur.

Cohen & Felson 1979

U.S. ADULTS WORKING FROM HOME SKYROCKETTED

3.6% in 2018 - 42% in June 2020

Fiorenzi, 2021

Rapid shift in routines for adults and juveniles led to this question:

Does difference in time spent at home

Affect

Juveniles' delinquent behavior

IMPORTANCE

- Routine changes have persisted so need to understand its impacts

- Crime rate prediction of persistent offenders

- Effects by SES

- Furthers theory that is used for policy prescription
