**Course Description**

This course approaches the understanding of delinquent and criminal behavior from a developmental, cognitive-behavioral, and psychological perspective. Viewing the juvenile and adult offender as being embedded and continually influenced by multiple systems, the course examines the risk and protective factors that are believed to influence the developmental pathways on the road to delinquency and crime. The behavioral, emotional, and cognitive aspects of crime are examined, focusing primarily on the offender but occasionally on the victim as well.

**Core Learning Course Outcomes**

1. Describe the various theories that may help explain crime.
  2. Identify the different perspectives of human nature that underlie the theoretical development and research of criminal behavior.
  3. Define crime, criminal behavior, and juvenile delinquency.
  4. Describe the various measurements of criminal and delinquent behavior.
  5. Apply the study of criminal behavior and delinquency, from a psychological perspective.
- CCJS Learning Outcomes -
1. Students will demonstrate understanding of the three pillars of our criminal justice system - courts, policing, and corrections.
  2. Students will demonstrate understanding of the major theories that are used to explain criminal behavior.
  3. Students will demonstrate understanding of how crime and criminal justice are products of political, economic, and social structures and examine how they intersect with systems of oppression.
  4. Students will demonstrate competency in the ability to read, interpret, and synthesize (in writing) important research related to criminological theory and the criminal justice system.
  5. Students will demonstrate understanding of the research methods used in the study of criminology and criminal justice.
  6. Students will demonstrate competency in applying quantitative skills to criminological concepts.

## Codes of Academic Integrity and Student Conduct

Students are required to uphold the Code of Academic Integrity and the Code of Student Conduct. Students who violate either of these codes may receive a failing grade in the class. Regarding assignments and exams, students should always observe the highest standards of academic honesty and integrity. Your academic work should be the result of your efforts, thoughts, and ideas. When writing papers or assignments, you should use an appropriate citation style consistently, indicating exactly where you are quoting, or have been inspired by, the work of others.

Cheating on any assignment or exam will result in the following disciplinary actions:

- (1) “XF” (a cheating F) will be the grade earned for the course, and (2) possible expulsion from the UMCP’s B.A. Program in Criminology & Criminal Justice at the Shady Grove Center, effective the following semester. All cases of academic misconduct will be referred to the Student Honor Council at UMCP.
- (2) Examples of conduct meriting such disciplinary actions include, but are not limited to, the following:
  - (1) cheating on an exam, either with or without assistance of another student or students,
  - (2) submitting as your own work a paper that is either wholly or partially plagiarized, such as purchasing a paper from an internet site or superficially rewriting the work of others without proper citation, or
  - (3) collaborating with fellow students on assignments or take-home exams for which you were instructed to work alone.

The University of Maryland, College Park has a nationally recognized *Code of Academic Integrity*. This Code sets standards for academic integrity at Maryland for all undergraduate and graduate students. As a student you are responsible for upholding these standards for this course. It is very important for you to be aware of the consequences of cheating, fabrication, facilitation, and plagiarism. For more information on the *Code of Academic Integrity* or the Student Honor Council, please visit <http://www.shc.umd.edu>

**Papers and assignments are subject to an originality check via turnitin.com. I submit all papers to this site to verify original work.**

You must adhere to the rule that any idea that does not originate in your own thinking must be cited, whether it be an idea shared by your course instructor in a lecture, a peer in a class discussion, or an expert in a scholarly source. If you are using another person’s exact words, you must indicate so by using quotation marks around those words. If you have questions about citing, you are encouraged to ask your instructor prior to submitting the assignment.

Should a student need accommodations in the classroom or for assignments/exams due to a verified, documented learning or physical disability, please inform me of your situation immediately, so that proper UMCP documentation and accommodation procedures are followed. <http://www.counseling.umd.edu/dss/>

## **Participation, Attendance and Make-up Policy**

Students are expected to adhere to the class schedule, attend and participate in every class, come to class on time and remain in class until it is completed. Class participation, to include discussion, group and individual class work, and respectful interaction between the instructor and students are emphasized in this course.

If you are absent from class, you cannot participate; therefore, class should only be missed for serious illness, emergency, religious holidays, or participation in official college functions. Opportunities to make-up missed in-class work will only be given in cases of excused absences and **official documentation is required**. Exams and assignments are considered to be Major Scheduled Graded Events and therefore the University medical excuse policy which allows one student signed honor statement attesting to illness does not apply to them. Excused absences are: illness with a doctor's note, death in the immediate family, required school activities, and required court appearance. If a doctor will not write you a note, you will need to get a copy of your medical record from them to verify your illness. By law, you are entitled to get a copy of this and it is your responsibility to do so. I must be notified in person or by phone or email PRIOR to missing an in-class assignment for me to consider giving you a makeup. If you know you will not be in class for in-class work or a date an assignment is due for an excused reason it is your responsibility to turn in the work PRIOR to the due date.

What to do if you must seek to be excused from class: Contact me by email or phone at the contact number on this syllabus as soon as you know you will be unable to attend class. Excusal will be granted, at my discretion, and make up work and late assignments accepted in these emergency cases as contracted and documented in email between the student and instructor. In case of excused absence, students are responsible for requesting missed material from another student or the instructor.

**PER UNIVERSITY OF MARYLAND POLICY FOR A STUDENT'S MEDICALLY NECESSITATED ABSENCE FROM CLASS, students shall now make a reasonable attempt to inform the instructor of his/her illness prior to the class; and, upon returning to class, present their instructor with a self-signed note attesting to the date of their illness. Each note must also contain an acknowledgment by the student that the information provided is true and correct. Providing false information to University officials is prohibited under Part 9 (h) of the Code of Student Conduct (V-1.00(B) UNIVERSITY OF MARYLAND CODE OF STUDENT CONDUCT) and may result in disciplinary action.**
